

Virtual EMDR Consultation Groups

For EMDRIA Certification or Professional Development

Learning and implementing new psychotherapy theories can feel daunting. When we are engaging with clients and their trauma, it can feel more intense. I am passionate about therapy in general and EMDR in particular, and get excited by opportunities to both learn and teach. Whether you are looking to become certified through EMDRIA or wanting to build your clinical skills and confidence to better serve your clients, I would love to work with you to help make this process feel more manageable and less confusing.

EMDR CONSULTATION GROUP - CLASSIC: Time is used to present clinical cases, conceptualize with the EMDR model, and answer questions. For therapists with EMDR Basic Training.

EMDR CONSULTATION GROUP - DEMO & PRACTICUM: Consultant gives live demonstrations and/or explicit teaching related to various phases of the EMDR process (i.e. float back, resource development, two handed interweave, various protocols such as Standard, Recent Event, Pendulation).
